

La Ferme Marine de Cancale

An insight into the world of Oysters

Learn about our trade and passion while enjoying the local scenery here at the Parcs Saint-Kerber oyster farm.

A one-hour tour will reveal all the steps that need to be taken in order to enjoy this delicious shell. From the breeding process to the daily routine of the « gardeners of sea », until our oysters are packed up and shipped all over the world.

Our guided tour designed for the young and curious will cover many aspects of oyster farming while providing space for interaction. Students of all ages will also learn about the marine environment and biodiversity.

At the end of the tour, they may get to taste our « Cancale treasure ».

You can then roam freely in our shell museum where 1500 species from the five continents are on display, as well as postcards from Cancale in the 1900s.
